
GRAVITY HYDRATION

- ✓ Prepare clean surface. Wash hands. Put on gloves.
- ✓ Prepare two SALINE syringes (push air out)
- ✓ Connect fluid bag to tubing, prime tubing, clamp, set dial-a-flow
- ✓ Unclamp port and swab with alcohol pad
- ✓ Flush port with SALINE
- ✓ Hook fluid tubing to port - **twist and push into cap**
- ✓ Unclamp tubing & run hydration
- ✓ When complete, clamp tubing, disconnect.
- ✓ Wipe port with alcohol pad
- ✓ Flush with SALINE vigorously with the “push-pause” method, clamp port
- ✓ Do it again in _____ hours.
