

CCC Fall 2006 Meeting
October 27th, 2006
8:15 am-4:30 pm

The Chesapeake Cytometry
Consortium

of the Mid-Atlantic Area

Location: John's Hopkins University, Rockville, MD-Montgomery County Campus

Agenda:

8:15-9:15 Registration/Breakfast (Sponsored by Amnis Corp.)

9:15-9:30 Welcome

9:30-10:30 Using Cell Tracking Dyes for Analysis of T-Cell Responses to Antigen
Alice L. Givan
Dartmouth Medical School

10:30-10:45 Break

10:45-11:45 Rare Event Analysis
Michael Keeney
Associate Scientist, Hematology/Flow Cytometry
Lawson Health Research Institute, London, Ontario

11:45-13:00 Lunch/ Visit with Vendors (Sponsored by BD Biosciences)

13:00 -14:00 Assessment of DNA damage by cytometry in relation to cell cycle and apoptosis
Zbigniew Darzynkiewicz
Director, Brander Cancer Research Institute
New York Medical College

14:00-15:00 A plasma cell is born: new insights into how humoral immunity is controlled
Loren D. Erickson
Assistant Professor, Department of Microbiology
University of Virginia

15:00-15:30 Coffee Break /Last Visit with Vendors (Sponsored by Invitrogen)

15:30-16:30 Laser excitation for flow cytometry: Covering the visible spectrum
William Telford
Head, NCI ETIB Flow Cytometry Core Laboratory
NCI/NIH

Happy hour immediately following the meeting. Your first drink is on the CCC!!

For registration and additional information visit us at www.ccc-flow.org or contact Mehrnoosh Abshari at absharim@niaid.nih.gov or 301-402-8502.
