

INFORMATION FOR PATIENTS: **CONTINUOUS VIDEO-EEG MONITORING**

Instructions:

- You can sponge bath but do not wash your head.
- Use button-up clothing.
- Make sure that someone is waiting outside the door when you are going to the bathroom.
- If school-aged, please let the nurse know so that she can make arrangements to go to school on the 7th floor.
- You may use a bandana to cover your head.
- Do not scratch your head. If your scalp itches too much, please let the nurse know.
- Do not apply grease to your hair.
- Do not go outside your room. Stay in the vicinity of the camera.
- If you want to go to the day room, please let the nurse know and she will help you get there.
- Press the push button whenever you have strange feelings, feel that a seizure is going to start, have an event, or recognize that an event has just ended. When in doubt, always push the event button.
- Visitors: please make sure that you do not stand or sit in between the patient and the camera because it blocks our view.
- Please make sure that the night light above your bed is working at night. If not, please notify the nurse.
