

BIOGRAPHICAL SKETCH OF 2007-8 RESIDENTS

Barry Barns, Pharm.D. (Email- bgb2b@virginia.edu)

Dr. Barns is a graduate of Duquesne University where he earned his Pharm.D. Degree in May 2007. His current interests are cardiology, infectious disease and critical care. Dr. Barns' residency project will evaluate the effect of rosuvastatin on the INR of patients taking warfarin. Upon completion of the pharmacy practice residency, he plans to pursue a critical care specialty residency or a clinical pharmacist position within a tertiary care hospital setting.

Kelly Branham, Pharm.D., M.B.A. (Email- klb7h@virginia.edu)

Dr. Branham received her B.S. in Biochemistry at Virginia Tech in 2003 prior to completing her Pharm.D. and M.B.A. degrees at the Virginia Commonwealth University/Medical College of Virginia School of Pharmacy and VCU School of Business in May 2007. Her areas of interest are infectious diseases and internal medicine. Dr. Branham's current pharmacy career goal is to pursue a position as a clinical pharmacist with the possibility of completing a second year specialized residency. Her long term ambition is to ultimately play a role in hospital pharmacy management.

Susan Cogut, Pharm.D. (Email- sbc5j@virginia.edu)

Dr. Cogut is a graduate of Virginia Commonwealth University/Medical College of Virginia School of Pharmacy, where she earned her Pharm.D. degree in 2007. She is also a graduate of The College of William and Mary, where she earned her B.S. in Biology in 2003. Her current areas of interest are drug information, internal medicine, and geriatrics. Dr. Cogut's residency project will compare the efficacy and safety of alternate-day dosing of HMG-CoA reductase inhibitors to conventional dosing. Upon completion of the PGY1-Pharmacy Residency, she plans to complete a specialized residency or pursue a career as a clinical pharmacist.

Young Ran Lee, Pharm.D. (Email- yrl5j@virginia.edu)

Dr. Lee is a graduate of the Western University of Health Sciences in California where she earned her Pharm.D. degree in 2007. Her current areas of interest include infectious diseases and hematology/oncology. Dr. Lee's residency project will develop guidelines for erythropoiesis stimulating agents in the oncology setting. Upon completion of the PGY1-Pharmacy residency, she plans to pursue a specialized residency within a tertiary care academic medical center.

Amber Ormsby, Pharm.D. (Email- ago2g@virginia.edu)

Dr. Ormsby is a graduate of the Virginia Commonwealth University/Medical College of Virginia School of Pharmacy, where she earned her Pharm.D. Degree in 2007. She also obtained a Bachelors Degree in Microbiology from Virginia Tech in 2003. Her current areas of interest are pediatrics, hematology/oncology, and internal medicine. Dr. Ormsby's residency project will evaluate the incidence of anemia in heart failure patients treated with angiotensin converting enzyme inhibitors versus angiotensin receptor blockers. Upon completion of the PGY1-Pharmacy Residency, she plans to complete a specialized residency.
