

Medication to be held 48 HOURS BEFORE AND 24 HOURS AFTER MYELOGRAM

Abilify / antipsychotic
Acetophenazine / antipsychotic
Adderall / amphetamine and dextroamphetamine
Adipex-P / stimulant/anorectic
Adphen / appetite suppressant
Adipost / appetite suppressant, sympathomimetic (systemic)
Alatrofloxacin / antibacterial
Amaphen / barbituate
Amitriptyline / tricyclic antidepressant
Amoxapine / tricyclic antidepressant
Amphetamine / stimulant
Anafranil / tricyclic antidepressant
Anergan 50 / phenothiazine-derivative
Anoquan / analgesic/ barbituate
Anoxine AM / phentermine
Antiflex / muscle relaxer
Antivert / antiemetic/antivertigo
Antizol / antifreeze antidote
Antrizine / antihistamine
Apo-Amitriptyline/Amitriptyline / tricyclic antidepressant
Arcet / contains caffeine
Aricept / dementia symptoms treatment adjunct
Aripiprazole/ antipsychotic
Artane/Antidyskinetic / antiemetic/antipsychotic
Asendin/ tricyclic antidepressant
Atomoxetine/ selective norepinephrine reuptake inhibitor
Aventyl / tricyclic antidepressant

Banaflex / skeletal muscle relaxer
Bancap / contains caffeine
Benzphetamine / appetite suppressant
Bonine / meclizine
Bonril / appetite suppressant
Bonril PDM / appetite suppressant
Bortezomib / antineoplastic
Bucladin-S softab / antiemetic /antivertigo
Bucet / contains caffeine
Buclizine / antiemetic/antivertigo
Buphenamine / appetite suppressant
Bupropion / antidepressant
Buffets / caffeine
Butalbital with Caffeine / caffeine
Butace / contains caffeine

Cafatine / contains caffeine
Cafegot / contains caffeine
Cafetrate / caffeine
Caffeine I.V. or Caffeine Tablets or medicines containing caffeine
Carbex / antiparkinson adjunct
Carisoprodol / muscle relaxer
Cefepime / cephalosporin
Celexa / SSRI
Cerebyx / anticonvulsion
Chlordiazepoxide/Amitriptyline/ tricyclic antidepressant
Chlorpromazine / phenothiazine
Chlorprothixene /antipsychotic /thioxanthenes
Chlorzoxazone / muscle relaxer
Cidofovir / antiviral
Citalopram / tricyclic antidepressant
Clomipramine / tricyclic antidepressant
Clorazepate / CNS depressant
Clorazpine / antipsychotic
Clozaril / antischizophrenia
Cogentin / antidyskinetic /antiemetic /antipsychotic
Compazine / phenothiazine
Cyclizine / antiemetic antivertigo agent
Cyclobenzaprine / muscle relaxer
Cylert / ADHD agent
Cymbalta / tricyclic antidepressant

Dapex / appetite suppressant
Darvon Compound – 65 / contain caffeine
Desipramine / tricyclic antidepressant
Desoxyn / amphetamine
Desyrel / antidepressant /antineuragic
Dexedrin / appetite suppressant
Dexedrine / appetite suppressant
Dexmethyl Phenidate / ADHD agent
Dextroamphetamine / appetite suppressant
Dextrostat / amphetamine
DHC plus / contains caffeine
Didrex / appetite suppressant

Diethylpropion / appetite suppressant
Dihydrocodone / caffeine
Dital / appetite suppressant
Dizac / benzodiazepine
Dizmiss / antiemetic/antivertigo agent
Dolmar / contains caffeine
Donepezil / alzheimer adjunct
Dopram / CNS depressant
Dothiepin / antidepressant
Doxapram / CNS depressant
Doxepin / tricyclic antidepressant
Dramamine / antiemetic/antivertigo
Droperidol / antinausea
Droperidol with Fentanyl / antinausea
Duloxetine / antidepressant
Dyrexan / appetite suppressant

Effexor / antidepressant/antianxiety agent
Elavil/Tricyclic / antidepressant
Endep / tricyclic antidepressant
Eldepryl / antiparkinsonian adjunct
Endolor / contains caffeine
Entacapone / antiparkinsonian adjunct
Ercaf/Escitalopram / antidepressant
Esgic / contains caffeine
EsgicPlus / contains caffeine
Ethopropazine / antidyskinetic /parkinson adjunct
Etrafon / tricyclic antidepressant
Etrafon 25/50 / tricyclic antidepressant
Etrafon ATricyclic / antidepressant
Extrafon Forte / tricyclic antidepressant
Excedrin / contains caffeine
Exelon / dementia adjunct
Ezol / contains caffeine

Fastin / phenothiazine
Femcet / contains caffeine
Fentanyl/ Droperidol – Combination / antiemetic
Ferndex / amphetamine
Fioricet / contains caffeine
Florinal / contains caffeine
Flexeril / muscle relaxer
Flexoject / muscle relaxer
Fluoxetine / tricyclic antidepressant

Medication to be held 48 HOURS BEFORE AND 24 HOURS AFTER MYELOGRAM

Flupenthixol / thioxanthene
Fluphenazine / antipsychotic/
antischizophrenia adjunct
/phenothiazine
Fluvoxamine / antidepressant
Focalin / CNS depressant
(**FocalinXR**)
Fomepizole / antifreeze poisoning
antidote
Furazolidone / antibacterial/
antiprotozoan
Furoxone (same as furazolidone)

Gelprin / contains caffeine
Gen-Xene / antianxiety
Geodon / antipsychotic
Goody powder / contains caffeine

Haldol / antidyskinectic /antiemetic
/antipsychotic
Haloperidol (same as Haldol)

Imipramine / tricyclic antidepressant
Inapsine / antinauseous
Innovar / antiemetic
Ionamin / phenermine
Iproniazid / MAO antidepressant
Isocarboxazid / MAO antidepressant

Largactil / phenothiazine
Largon / antidepressant
Levoprome / antipsychotic
Lexapro / antidepressant
Limbitrol / antianxiety/antipsychotic
Loxapine / antipsychotic
Loxitane / antianxiety /antidepressant
/antipsychotic
Ludiomil / antidepressant
Luvox / SSRI

Maprotiline / tricyclic antidepressant
Marezine / antiemetic/antivertigo
Maxipime / cephalosporin
Mazanor / appetite suppressant
Mazindol / appetite suppressant
Meclizine / antiemetic/antivertigo
Medigesic / contains caffeine
Melfiat / appetite suppressant
Mellaril / tricyclic antidepressant
Menantine / antialzheimers agent
/dementia adjunct

Meni-D / antiemetic/antivertigo
Mepergan / contains phenothiazine
Meridia / appetite suppressant
Meropenem / antibacterial
Merrem / antibacterial
Mesoridazine / phenothiazine
Metadate CD / CNS stimulant
Metaxalone / muscle relaxer
Methamphetamine / amphetamine
Methotrimeprazine / antipsychotic
Methylphenidate / CNS stimulant
Methylphenidate extended release /
CNS stimulant
MioRel / muscle relaxer
Mirtazapine / antidepressant
Moban / antischizophrenia agent
Modicate / phenothiazine
Moditen / phenothiazine
Molindone / antischizophrenia agent
Mus-Lax / muscle relaxer
Myolin / muscle relaxer
Myotrol / muscle relaxer

Nardil / antidepressant
Navane / thiothixene/schizophrenia
agent
Nefazodone / antidepressant
Norflex / muscle relaxer
Norfranil / tricyclic antidepressant
Norgesic / muscle relaxer
Norgesic Forte / analgesic /muscle
relaxer
Norpramin / tricyclic
antidepressant
Nortriptyline / tricyclic
antidepressant

Obe-Nix 30**Obenix** / appetite
suppressant
Obephen / phenermine
Obermine / phenermine
Obestin / phenermine
Olanzapine / antischizophrenia
agent
Ondansetron / antinauseous
Orap / antidyskinectic/antipsychotic
Orflo / muscle relaxer
Ormazine / phenothiazine
Orphenadrine / muscle relaxer
Orphenate / muscle relaxer
Oxydess II / appetite suppressant

Pamelor / tricyclic antidepressant
Paraflex / skeletal muscle
relaxer
Parafon Forte / skeletal muscle
relaxer
Parmine / appetite suppressant
Parnate / antidepressant
Paroxetine / antipanic/antianxiety
/antiobsession agent
Parsidol / antidyskentic
Paxil / antidepressant
Pemoline / CNS stimulant
Permitil / phenothiazine
Perphenazine / antipsychotic
Phenazine / phenothiazine
Phencen / phenothiazine
Phendimetrazine / appetite
suppressant
Phenelzine / MAO antidepressant
Phenergan / phenothiazine
Phentermine / appetite suppressant
Phentrol / phenothiazine
Pimozide / appetite suppressant
Plegine / appetite suppressant
Prelu-2 / appetite Suppressant
Prochlorperazine / phenothiazine
Prolixin / phenothiazine
Promazine / phenothiazine
Promethazine / phenothiazine
Promethazine and
Combinations / same as above
Propiomazine / tricyclic
antidepressant
Propoxyphene Compound-65 /
contains caffeine
Prothiaden / tricyclic antidepressant
Protriptyline / tricyclic antidepressant
Prozac / antipsychotic/antiobsessive
/antipanic
Prozine-50 / neuroleptic

Quetiapine / antipsychotic

Racemic / amphetamine /sulfate
amphetamine
Remeron / antidepressant
Remular / skeletal muscle relaxer
Repan / contains caffeine
Rexaphen / appetite suppressant
Rexigen / appetite suppressant

Medication to be held 48 HOURS BEFORE AND 24 HOURS AFTER MYELOGRAM

Risperdal / antipsychotic
Risperidone / antipsychotic
Ritalin / CNS stimulant
Ritalin XR / CNS stimulant
Rivastigmine tartrate / dementia adjunct
Ru-Vert-M / antiemetic/ antivertigo

Sanorex / appetite suppressant
Sarafem / antidepressant/antibulemic
Sedapac / contains caffeine
Selegiline / antidyskinectic
Serentil / phenothiazine
Serquel / antipsychotic
Sertraline / antidepressant
Serzone / antidepressant
Shogan / phenothiazine
Sibutramine / appetite suppressant
Sinequan / tricyclic antidepressant
SK-Amitriptyline / antipsychotic
SK-Pramine / appetite suppressant
Skelaxin / muscle relaxin
Soma / muscle relaxer
Spancap / appetite suppressant
Sparfloxacin / antibacterial
Sparine / antipsychotic
Stelazine / phenothiazine
Strattera / ADHD adjunct
Supac / contains caffeine
Surmontil / tricyclic antidepressant
Synalgos-DC / contains caffeine

Taractan / thiothixene /antipsychotic
Tencet / caffeine
Tencon / caffeine
Tenuate / appetite suppressant
Tenuate Dospan / appetite suppressant
Thiethylperazine / phenothiazine
Thioridazine / phenothiazine
Thiothixene / antipsychotic
Thorazine / phenothiazine
Tindal / antipsychotic
Tizanidine / CNS muscle relaxer
Tofranil / tricyclic antidepressant
Torecan / antiemetic
Tramado / analgesic/opioid
Tranxene / antianxiety
Tranyclypromine / antidepressant MAO antidepressant
Trazodone / antidepressant /antineuralgia
Triad / contains caffeine
Triapin / contains caffeine
Triavil / antipsychotic
Trifluoperazine / phenothiazine
Triflupromazine / phenothiazine
Trilafon / phenothiazine
Trimipramine / phenothiazine
Trovan / antibacterial
Trovan IV / antibacterial
Trovofloxacin / antibacterial
Two-Dyne / contains caffeine

Ultiva / opioid
Ultram / analgesic
Ultracet / analgesic

Vanquish / contains caffeine
V-gan / phenothiazine
Velcade / antineoplastic
Venlafaxine / antidepressant
Verapamil - IV only
Vesprin / phenothiazine
Vistaril / phenothiazine
Vistide / antiviral
Vivactil / Tricyclic antidepressant

Wellbutrin / antidepressant
Wigraine / contains caffeine

Zaleplon / sedative/ hypnotic
Zanaflex / antispasmodic
Ziprasidone / antipsychotic
Zofran / antiemetic
Zoloft / antidepressant
Zonalon / Antipruritic
Zyban / antidepressant
Zyprexa / antipsychotic

Neuroleptic = Sense 1 major tranquilizer, antipsychotic drug, antipsychotic, neuroleptic drug –
(tranquilizer used to treat psychotic conditions when a calming effect is desired)
(a drug used to reduce stress or tension without reducing mental clarity)
