

Pricing for BTRF services

Last update: 02/01/2008

Category	Services	Unit of measure	UVA Rates*	outside UVA rates
Tissue procurement, banking and processing	Quick frozen or fresh tissue with histologic quality control (Default method)	each	\$24.50	\$37.00
	Quick frozen or fresh tissue without histologic quality control (by arrangement)	each	\$15.50	\$23.00
	Cell dissociation & viable cell freezing, no enzymatic digestion	each	\$40.50	\$61.00
	"", with enzymatic digestion/cell dissociation	each	\$30.50	\$46.00
	Peripheral blood leukocyte (PBL) isolation from blood samples	each	\$54.00	\$82.00
	Processing of urine and blood for storage (includes sample pickup)	each	\$23.00	\$35.00
	Sample pick up and transfer (includes some data annotation)	each	\$20.00	\$30.00
Histology services	Paraffin embedded block (includes tissue collection)	each	\$14.50	\$22.00
	Paraffin embedding of tissue supplied to facility	each	\$4.00	\$6.00
	Histologic sectioning of paraffin tissue block - 1st section	each	\$3.00	\$5.00
	Histologic sectioning of paraffin tissue block - additional section	each	\$1.50	\$2.00
	Histologic sectioning of frozen tissue - 1st section	each	\$6.50	\$10.00
	Histologic sectioning of frozen tissue - additional section	each	\$3.00	\$5.00
	Training on cryostat for frozen histologic sectioning	hr	\$40.00	\$61.00
	Cryostat instrument usage (per hr)	hr	\$10.00	\$15.00
	Hematoxylin & eosin (H&E) stain	each	\$2.00	\$3.00
	Gomori's Trichrome stain	each	\$4.50	\$7.00
	Macrodissection of tissue	each	\$19.50	\$30.00
	Immunohistochemistry (IHC) (single stain)	each	\$12.00	\$18.00
	Immunohistochemistry (IHC) (double stain)	each	\$19.70	\$30.00
	IHC-development&titration (per antibody)	each	\$188.00	\$285.00
	IHC-development&titration of double stain (per antibody set)	each	\$305.00	\$462.00
	Cytospin preparation	each	\$9.00	\$14.00
Tissue microarray production	Histologic review of donor tissue	each	\$3.50	\$5.00
	Complete sectioning of TMA paraffin block	each	\$147.00	\$223.00
	Histologic quality assurance for TMA section with up to 400 samples	each	\$205.00	\$311.00
	Set up for each TMA design	each	\$108.00	\$164.00
	TMA construction (per tissue core placement in TMA block)	each	\$1.00	\$2.00
Nucleic acid and protein services	DNA isolation from fresh or frozen tissue sample	each	\$9.50	\$14.00
	RNA isolation from fresh or frozen tissue sample	each	\$16.00	\$24.00
	Protein isolation from fresh or frozen tissue sample	each	\$7.50	\$11.00
	RNA isolation from macrodissected fresh or frozen tissue sample	each	\$35.50	\$54.00
	DNA isolation from macrodissected fresh or frozen tissue sample	each	\$29.00	\$44.00
	Protein isolation from macrodissected fresh or frozen tissue sample	each	\$27.00	\$41.00
	All prep (DNA, RNA, protein) from macrodissected fresh or frozen tissue sample	each	\$85.00	\$129.00
	DNA isolation from FFPE* tissue sample	each	\$8.00	\$12.00
	RNA isolation from FFPE tissue sample	each	\$16.00	\$24.00
	DNA isolation from macrodissected FFPE* tissue sample	each	\$27.50	\$42.00
	RNA isolation from macrodissected FFPE tissue sample	each	\$35.50	\$54.00
	Bioanalyzer analysis			
	nanochip	each	\$85.00	\$129.00
	picochip	each	\$86.50	\$131.00
	DNA chip	each	\$79.00	\$120.00
	1 ug of RNA isolated from macrodissected tissue	each	\$3.50	\$5.00
	1 ug of DNA isolated from macrodissected tissue	each	\$2.50	\$4.00
1 ug of protein isolated from macrodissected tissue	each	\$2.00	\$3.00	
Laser microdissection	Instrument training	hr	\$40.00	\$61.00
	Instrument use	hr	\$21.00	\$32.00
	Histologic preparation for laser microdissection (per slide)	each	\$6.00	\$9.00
Hourly fee and miscellaneous	Pathologist , hourly fee to cover other services	hr	\$90.00	\$136.00
	Director, hourly fee to cover other services	hr	\$40.00	\$61.00
	Technician, hourly fee to cover other services	hr	\$20.00	\$30.00
	Freezer storage (per year)			
	liquid Nitrogen	6 vials	\$9.30	\$14.00
	minus 80	6 vials	\$7.50	\$11.00
	minus 20	6 vials	\$7.00	\$11.00
	Miscellaneous reagent/supply purchase - at same cost as to BTRF			

*Eligible PTAOs receive a 10% co-Pay from the Cancer Center, which will be automatically applied to your invoice
 |*(FFPE = formalin-fixed paraffin-embedded)
