

## Directions to the Biorepository and Tissue Research Facility (BTRF)

Room 4872 Old Medical School Building Lab phone: 982-0488

### Directions from Jordan Hall / MR/ Medical Center Complex:

Enter one of the link corridors that connect to the West Complex. Walk towards the West Complex; we are located in the Old Medical School Building within this complex. There will be a lot of jogs right and left, which differ depending on what level of the link you are on. Try and find the first long hallway after the main elevators in the Multistory building. Follow this hallway until it ends at the front of the Old Medical School Building. If you are on the second level, this will be immediately before you enter the Ophthalmology clinic. At this corner there will be the elevator/stairway combination. Take either one to the fourth floor. After entering the fourth floor, take a quick right around the corner and walk down to the end of this corridor to our room (4872).
