

Cancer Control & Population Health (CPH)

Program Meeting

CPH program news and announcements will include updates on the availability of new COVID-19 data as well as updates on recently awarded grants. Program updates will be followed by a presentation from Dr. Scheiman's team:

“The Pancreatic Cyst Surveillance Conundrum: Optimizing Benefit while Reducing Harm”

James Scheiman, MD

Professor, Department of Medicine, Division of
Gastroenterology and Hepatology

Thursday, March 18, 2021

10:00am – 11:00am
